Haud raro Effata nostra variis interpretationibus subiecta sunt, evenitque sæpe, ut verba bono animo dicta, conjuncta tamen, atque cum aliis combinata, sensum haud pariant bonum, nec omni ambiguitate prorsus careant, cogantque lectorem aliam, quam ipse voluit auctor, iis addere potestatem. Quomodocunque sit, culpa penes autorem. Ista vero ambiguitas, ut mitius loquamur, quam in encomio, quo nos dignos judicavit Vir celeberrimus & doctissimus Nic. Elert, Professor & Bibliothecæ Vniversitatis Havnienfis Præpositus, quærendo investigavimus, nos coëgit justam, ut opinamur, mentionem faciendi præfati viri in prologo catalogo Numophylacii Thottiani præfixo. Quid accidit? evitando carybdim, in Scyllam violenter detrusi sumus, cavillationibus & verbis inutilibus obruti; Hæc vero, utpote quæ jam satis in responso nostro, Danice conscripto, quo lectorem re-

IV

mittimus, refutata sunt, iterum refellendi nec animus, nec voluntas nobis est; imo vero! ita oppugnata esse arbitramur, ut quivis sensatus fateri cogatur, nostram de ista re expositionem justam esse & veritatis fulcris suffultam. At ille censor & laudator malignus atque vehemens, hisce suis insimulationibus non contentus, nos iterum hostili animo aggressus est, sitim quærens, hæc unica ei causa fuisse videtur increpandi, cum enim semel animum odio imbuerit, nullam rem ei finem accusandi, nisi defatigationem, & fatietatem allaturam esse statuerit. Novimus quidem aliena in domo silentium esse servandum, sed & hujus silentii leges & metas esse haud nobis subterfugit, ut apud alienos nil præstare officiorum, si liceat, modestiam non arguat, sed rusticitatem. Tacendum igitur est, ubi res nil ad nos spectantes geruntur, ubi vero virum ingredi videmus, mala nobis tentantem, tunc tacere proditoris est, non officii. Si alienum gregem invadere lupo licitum est; quid impedit, quo minus canis accurrat, & latratu vel abigat, vel, si detur, saltem prodatur? Sed & justæ adfunt rationes, ob quas quoque hic non tacendum putaverimus. Primum, quia nos maximo laboris fructu privavit, eumque socio suo, F. Steensen, opus nostrum optimo ordine dispositum aggredienti, adjudicavit. Deinde factum excusaturus, præmissam finxit, ut inde mendacia in encomio, quod in nos
nil

nihil tale cogitantes, ore impurissimo evomuit, eliceret. Utiqve hoc tuum iudicium nugatorium esse intelligis. Te dicere atqve enumerare vitia, in dispositione librorum Theologicorum commissa, oportebat, & id erat certi accusatoris officium ea exponere. Verum concedimus tibi, ut ea præteriveris, quæ, cum taces, nulla esse concedis. Saltem fingere debuisses quædam, ne prorsus videaris temere accusare, & fucum lectori facere. Quid est aliud potestate tibi concessa abuti, nisi hoc modo accusare, atqve id objicere, quod planum facere non modo non possis, verum ne coneris quidem? Tertio, cum videamus hasce fictiones a quibusdam admitti, ut pro melle fel, & medicinæ loco venena bibendo, sibi gratulentur. Quæ res adeo indigna nobis visa est, ut responsum cohibere nullo modo possimus. Mirabimur sane, si quid adhuc frontis superest, adeo omnem detrivisti pudorem. Dicit Censor noster: E. v. Haven verba nostra mirum in modum detorquere, fictasque de nobis criminationes spargere ausus est in præfatione sua. Putasne criminationem esse, quod diximus: tibi demandatam esse Bibliothecam Thottianam eum in finem, ut modum, quem in disponendis libris sequeremur, præscriberes? ridiculum sane! nonne tu ipse hoc falsus es in præfatione catalogo librorum Thottianorum præfixa, in hunc modum verba faciens: mihi injuncta est ista provincia, ut sub meo ductu

VI

& auspiciis in ordinem redigeretur. Ecquid existimas, criminationem fictam inesse his verbis? iussit nos sequi designationem librorum, quam optimo ordine dispositam in libros Theologicos reliquit Beatus Possessor. Negamus, nam quæ manu designatio librorum formæ majoris, quam tu optime ordinatam atque dispositam esse dixisti, & a qua recedere nefas duxisti, exarata est, eadem quoque index librorum formæ minoris. Tædet jam profecto cum vano spernologo luctari, frustra Æthiopem lavamus, cui ater color pro candido, mendacia pro veritate sunt. Si quid, vestigia adversarii nostri premendo, honestati contrarium, præter mentem & intentionem nostram exciderit, id revocatum volumus. Confidimus interim lectorem æquum rem ita exponere, ut neutri parti vitio cedat. Non hoc solum nobis in causâ doloris est, pœnitet etiam tempus & chartas perdidisse, veriti enim, ne plus justo præfatio extenderetur, quædam omisimus, nunc paucis expedienda.

Quandoquidem non omnibus rei numismaticæ amatoribus operæ pretium esse videbitur, Numophylacium hoc & catalogum lustrare, nec cuivis continget ad manus habere opera illa, quibus in descriptione numorum, eorumque dispositione usi sumus, haud abs re erit conspectum dare numorum, ex quo ordo eorum apparet. Tomus primus continet numos

mos antiquos, Græcos & Romanos, nempe 1. Hispaniæ, 2. Galliæ, 3. Italiæ, 4. Sicilia, quibus subjunximus numos punice inscriptos, 5. Daciæ, 6. Mæsiæ, 7. Thraciæ, & adjacentium insularum, 8. Macedoniæ, 9. Thessaliæ, 10. Græciæ cum insularum Græcarum numis, 11. Asiæ, 12. Africæ, 13. Barbaros, 14. incertos, 15. Romanos antiquissimos, 16. Familiarum Romanarum, 17. Imperatorum Romanorum, quibus, ne unus idemque nummus toties describeretur, adulterinos inferuimus; eadem de causa magnitudinem metallorum separare nefas duximus, 18. adulterinos, 19. Virorum & Fœminarum illustrium. Hos sequuntur nummi aurei mediæ & recentioris ævi, ex instituto B. Possessoris seorsim positi, & quidem hoc ordine: 1. Imperatorum Romano-Germanicorum, 2. Russiæ, 3. Regum, 4. Electorum, 5. Pontificum, 6. Archiepiscoporum, 7. Episcoporum, 8. Magistrorum ordinum, 9. Principum Anhaltinorum, 10. Ducum Baviariæ, 11. Marchionum Brandenburgicorum, 12. Ducum, quibus intercalavimus Landgraviorum Hassiæ, Archiducum Austriæ, & Principum Transylvaniæ, 13. Principum, 14. Comitum, 15. Baronum, 16. Italiæ, 17. Helvetiæ, 18. Belgii fœderati, 19. variarum urbium, 20. Asiæ, 21. Africæ, 22. incertos, 23. varios.

Eundem ordinem, quamvis magis alphabeticum, servavimus in collectione numorum, quæ usuales, &

VIII

in commercio non receptos, vulgo medagliones, continet, atque Tomum secundum constituit. Missiles vero, Gallis jettons, & numos virorum illustrium ad suas regiones retulimus. Hoc de ordine generaliori.

Quod vero ad ordinem specialiore attinet, animadvertendum est, dari in isto numario collectiones numorum, quos non commode, nisi disturbaretur ordo, inferere licet. Sunt numi Ludovici XIV per Maugerum, Regum Angliæ a Wilhelmo Conquestore usque ad Georgium II per Dassierum, Regum Sveciæ per Hedlingerum, eorundem Regum per Karlstenium, Consulum Hamburgensium. Offendis certe, Benevole Lector! in collectione numorum Regum Sveciæ per Karlstenium quosdam, qui prima fronte suo loco positi esse non videntur, occurrit enim sub numis Caroli XII Fridericus IV Dux Holsatiæ lin. Gottorpens., ab artifice tamen propter affinitatem inter Regem & Ducem in seriem relatus.

Nummis Danicis Bracteatos quosdam argenteos, & æreos solidos, vel in uno latere, vel in utroque unica litera signatos, inviti inseruimus, auctoritatem Bircherodii, Sperlingii, & aliorum secuti, nostra sententia; inter nummos civitatum referendos. Non obstat, quod e Danica tellure effossi sint, multi enim extant numi in isto thesauro, Imperatorum Romanorum prisca ævi, Regum Angliæ, Galliæ, & Civita-

tum,

-tum, e nostra tellure eruti, hos esse Danicos hominem sanæ mentis esse, qui autemet, arbitramur neminem. Evitavimus vero manifestos errores, quorum se reos faciunt quidam nummographi, intercalando nummis Danicis bracteatos Megapolenses, caput bovis exhibentes, Luneburgenses, leonem præferentes, & solidos anepigraphos Ottonis Marchionis Brandenburgensis. In ista numerorum Danicorum collectione nonnulli dantur rari, & inediti, quales sunt nummi solidi Haraldi Hein, & Olai Hunger. Accedunt duodecim, literis Runicis signati, primum delineatum exhibet Ott. Sperlingius in numis bracteatibus & cavis n. 23, diversum tamen in eo, quod noster in adv. p. literas exhibet Runicas, J L V, præterea in av. abest litera 2, cujus loco punctum conspicitur, explicatum vero dedit N Kederus in Runis. Hujus viri conjectura lectione numi proxime sequentis, quem in fine operis descripsimus, mire confirmatur, ibi enim, præposita cruce legendi auspiciis indicante, legitur **†HVRBNT†**, omissa voce **NT**, quæ, nostro judicio, voci Danicæ, **Udi**, latine in, respondet, Danis haud insolens est G velut D pronuntiare, hinc artificem, neglecta orthographia, elocutioni vocis tantum intentum, G pro D posuisse valde probabile est. His alium subjungimus ejusdem fere typi, sed qui inscriptionem ostendit in av. p. latinam: **ROS IN LVNDIN**, quod

nomen, tam monetarii, quam loci vel eentjes in nummis Canuti IV occurrit. Tres isti nummi, si materiam eorum species, typum, fabricam, & pondus, quam proxime accedunt ad nummos Haraldī Hein. Si quis igitur maluerit eos prænominato regi adscribere, ei non magnopere adversabimur. Sterlingorum Sæculi XI magnitudinem habent, ex argento puro, & admodum rari, nec mirum, quandoquidem verbi divini præcones in literis Runicis abrogandis omne studium adhibuerunt; &, ut consilio eventus responderet, omnes libros in summum antiquitatum & historiarum detrimentum igni tradiderunt.

Ex hoc conspectu liquet, inesse huic thesauro nummos, quos magni æstimant Numographi, Pellerinus, Gesnerus, Vaillant, Fröhlich, J. D. Köhler in deliciis monetilibus, J. F. Köhler in nummis aureis mediæ & recentioris ævi, J. P. Ludovic. in nummis mediæ ævi, O. Sperling in Bracteatis & Cavis, N. Keder in argento Runis insignito, le Blanc in nummis Gallicis, J. F. Joachim in Grossis & Collectione numismatum, Th. B. Bircherod in Specimine antiquæ rei monetariæ Danorum, O. Jacobæus in Museo Regio Danico, E. Brenner in Thesauro Svecico, D. S. Madai in uncialibus, Lochner in Collectione numismatum. Numos vero arabicos, qui in isto thesauro continentur, maximam partem explicatos invenias in Museo Cusico Borgiano, a celeberrimo

rimo & doctissimo viro J. G. C. Adler, Danicæ aulæ concionatore, edito, & in Catalogo Numophylacii Bodlejani, per Wiese. Sunt valde antiqui, & forte aliquot ex iis, qui jam pridem e Gothlandica tellure effossi sunt. Magnitudine quartam fere partem thaleri uncialis æquiparant. Peripheriam ornat inscriptio simplici ordine in quibusdam, in aliis duplici ordine comprehensa. Hos autores diligenter perustravimus, & ab eorum descriptione nullibi, nisi res ipsa postularet, recessimus, imo potius eos verbotenus secuti sumus, de iis loquimur, qui nummos latine descripserunt, ne crederet lector in re numismatica versatus, diversam descriptionem diversum quoque prodere numum. Dantur nihilominus multi in hoc numophylacio nummi Honorarii, sive Symbolici, circa hæc tempora eusi, quos frustra apud præfatos autores quæras; His igitur describendis studiosissime nos dedimus, & quantum per ingenii tenuitatem licuit, explicare aggressi sumus. Nobis vero hæsitantibus curæ cordique fuit viros consulere, huic studio deditos; hos inter memorare licet perillustrem Dominum, P. F. Suhm, Regium Clavigerum, & Historiographum, Virum; si quis alius, antiquitatum patriarum amantissimum, hic nobis bene cupiens omnia adjumenta candide subministravit. Neque nobis auxilium suum subtraxit Vir celeberrimus atque doctissimus B. Munter, S. S. Theologiae

giæ Doct̃or, & Paſtor ad ædem D. Petri Havniæ. Hiſtoriam enim rei numariæ Romanæ optime callens, hanc quoque ſibi comparavit, & ordinavit. Hujus Viri collectio inter optimas, quæ in eo genere hic viſuntur, cenſeri meretur, atque nunc magna acceſſione eximiorum numiſmatum Romanorum, ex omni metallo, emtionis jure locupletavit. Hic ſingulos numos antiquos, qui in iſto theſauro continentur, manibus oculisque uſurpavit ſuis. Qvōdam cenſoria virgula notavit, ſic e. g. animadvertit nummos argenteos Marcianæ & Matidiæ ſub n. 937 & 38 deſcriptos, eſſe fuſos & adulterinos, id quod aquila, typus in conſecratione imperatorum tantum uſitatus, liquide offendit. Æreos Corn. Salonino tributos, excepto n. 2889, eſſe Claud. Gothici, & ſic porro.

Scriptoribus rei numariæ jam enumeratis, proximum eſt, ut præſtantiffimos cælatores, quorum nomina in numis occurrunt, recenſeamus. Laudes ante alios merentur: Adzer, Arbien, Bagge, Barbicz, Bauert, Berg, Bernard, Blum, Borner, Boskam, Brauert, Brem, Breton, Cheron, Daſſier, Donner, Dorfelin, Dupre, A. Dyrer, Fehrman, Groſkurt, Hameranus, Hæſling, Hannibal, Hardi, Hartman, Haupt, Hedlinger, Hilcken, Holzhey, Hul, Kirk, Koch, Krafft, Lambelet, Lode, Mauger, Mazenkopf, Meiſbus, Meier, Moli, Natter, Norman, Oexlein, Pfaltz, Reity, Richter, Ritter, Rög, Rætters,

tiers, Schmelzing, Schultze, Scuaf, Seeffke, Toda, Wahl, Wärmuth, Waechter, Warin, Werner, Vestner, Wideman, Wif, Winslow, du Wivier, Wolff, Worth, Wurth.

Mole superat Thesaurus noster Numophylacium Molano-Bœhmianum a Jo. Fr. Borchmanno descriptum. Continet enim nummos aureos antiquos 195. In his nonnulli extant, haud dubie e nostra tellure effossi, quo pertinere arbitramur rarissimum, & in suo genere unicum, sub n. 167 descriptum, atque eundem, sed male DHIYWPOSPFAYC in lacca expressum, esse, de quo mentionem fecit Thom. Bartholinus Senior in annorum 1674 & 1675 Actis medicis & philosophicis, observatione 29., ab aratoribus una cum aliis numis Romanicis in colle Riendbierigs prope Brudsgaard Randusiani districtus, in prædio D. Elisabethæ Jul inventum. Fuisse bracteatum & ansatum, quemadmodum noster, ex ipsa descriptione liquet, quam dedit Janus Rosencrantz in literis ad supra laudatum virum missis. Bracteatum esse diximus, quandoquidem altera numi facies cavitate sua responderet literis & figuris in altera parte exstantibus, confirmatque luculenter contra Tenzelium in Suppl. II Histor. Gothan. p. 33, bracteatos jamjam sæculo VI in usu fuisse. Tanta est hujus numi raritas, ut si judicium nostrum addere liceat, totum numophylacium Thottianum

pretio facile superet. Inter raros quoque censendus est aureus, sub n. 15 descriptus. Referri potest ad Cleopatram filiam Cleopatrarum & M. Antonii, uxorem Jubæ regis Mauritaniae, cognomine ΣΕΛΗΝΗ, ad quod alludere videtur typus av. p. Firmat hanc nostram sententiam Pellerinus in Rec. des Med. de Rois pl. vi. ubi numum delineavit, effigiem hujus Reginae, cum luna bicorni & astro, præferentem. Inter numos argenteos antiquos, qui numerum 1964 constituunt, quosdam offendas æreos, lamina argentea obductos. Ærei antiqui numerum 5149 efficiunt, quibus numos metalli mixti inseruimus. His iterum inspectis, deprehendimus circa quadraginta aliam, quam in catalogo dedimus, descriptionem exhibere; de suo igitur loco motos sub alio numero posuimus, unde factum est, ut unus idemque numus interdum bis sub uno eodemque numero occurrat. Aureos medii & recentioris ævi 1167. Hos inter multi occurrunt floreni sic dicti, quorum pretium non secundum valorem intrinsecum, sed pro raritate eorum determinavimus, incidas in quosdam ab artifice Judaico Pragensi cufos, vulgo Juden Gold Stück dictos: Sunt. n. 2. 3. 4. 5. 44. 701. 1127. 1130. Offendas etiam quosdam pitter dictos, c. g. 235. 290. 342. 343. 362. 363. 372. 710. Argenteos, æreos, stan. & plumb. 11460. Omnes vero constituunt numerum 19935. Argenteis pondus ap-

ponere brevitatis temporis obstitit, idcirco in fine hujus Tomi quam accuratissime adieciimus, de raritate æneorum, stan. & plumb. nil certi statui potest, sed quilibet numerorum æstimator & censor pro raritate eorum, supra pretium intrinsecum, facere potest.

In transcurso monendum est, quod in præfatione Tomi I diximus, annum æræ Christianæ sæculo 13 in nummis indicatum esse, idque numo sub n. 10 exhibitio, probare conati sumus. Sed, accuratius inspecto, nullo dubium oriri videtur, quin sæculo 15 usus sit constat enim literas E & C clausas, tam in membranis, quam in nummis a sæculo XI usque ad XVI in usu fuisse: Hoc decepti, existimavimus C quatuor vicibus positum, bina C clausa exprimere; quod si verum sit, sententia nostra bene constat. At probabile est monetarium ob angustiam spatii a recepta consuetudine, quod etiam ex litera E in eodem nummo occurrente apparet, recessisse, & per quodlibet C sæculum denotare voluisse. Nihilominus assertioni nostræ, quamvis debilitatæ, robur tamen addit Nic. Kederus in de nummorum in Hibernia indagatione, pag. 5, & O. Jacobæus, quorum iste nummus delinæavit, sæculum 13 præferentem.

Cæterum omne studium adhibuimus, inscriptiones numerorum accurate adducendi, eorumque typum, ea, quæ fieri potuit, diligentia explicandi Irreperunt nihilominus quædam errata, quæ tamen ma-

xima ex parte in fine operis indicavimus, plura vero si offendas, ea, rogamus, benevole condonare velis.

Cum igitur constituerunt iudices delegati, ut Nummi in isto Tomo comprehensi, publica auctione, vel per partes, vel in certa serie, prout emtoribus placebit, venum exponantur, & plus licitanti addeantur, rogantur viri docti & hujus numarii cupidi, vel procul Havnia, vel in exteris regionibus habitantes, velint mandata sua tam mature huc mittere, ut sub finem mensis Februarii auctio incipere possit. Non deerunt Havniæ docti viri, qui rogati operam suam in cõmendis numis lubenter offerant.
